Statement of the World Peace Council about the Israeli assault on the Palestinian city Jenin

The World Peace Council (WPC) expresses in the strongest way the condemnation of the assault of the Israeli army against the Palestinian people at the refugee camp of Jenin. The new and ongoing massacre of the occupation forces with more than 8 Palestinians killed and dozens of injured, constitutes the policy of ethnic cleansing and of a slow genocide of the heavily armed state against the Palestinian people who are for decades under occupation.

The brutality of air attacks by drones and combat jets against the refugee camp in Jenin is causing terror, death and displacement. The Israeli occupation regime is increasing the violence and its military force against Palestinian civilians, never before such large scale assault has taken place in the area.

The WPC expresses its solidarity to the suffering Palestinian people in Jenin and in all Palestinian lands and calls upon all its members and friends to denounce the criminal murderous attack of the occupation forces. At the same time we condemn the hypocritical and cynical statement of the US administration and its allies which speak about the “right of Israel to self-defense”

End the massacre and the aggression of the Israeli army now! End the occupation!

The Secretariat of the WPC 4th July 2023
